

TRI-STAR PICKLEBALL

Group Admin Quick Start

A click-by-click guide to setting up Play Times, auto-posting sign-up sheets, and creating sheets by hand.

What's inside

Each section walks you through one task. Every tap is spelled out. Phone instructions are listed first; computer (laptop) instructions follow when they differ.

1	Set up a Play Time for your group	3
2	Turn on auto-posting sign-up sheets	6
3	Where members find the sheet	8
4	Create a sign-up sheet by hand	10
5	Tips and "Got stuck?"	13

Before you start. You'll need to be an admin of your group. If you can see a section called **Admin** when you open the menu (phone) or in the left sidebar (computer), you're set. If you don't, ask the Tri-Star team to give you admin access.

Names of buttons. Anywhere this guide shows a button like **Save** or **Edit**, that's the exact word printed on the button in the app. Tap or click it.

1 Set up a Play Time

A "Play Time" is your group's recurring slot — for example "Tuesday Mixed at 6pm." You set it up once. Everything else (auto-posting, sign-up sheets, member notifications) builds on it.

Step 1 — Open Manage Groups

ON YOUR PHONE

1. Open the app.
2. At the bottom of the screen tap the icon labelled **More** (three lines, far right).
3. In the list that slides up, scroll down to the section labelled **Admin**.
4. Tap **Manage Groups**.

ON A COMPUTER

1. Open the app in your browser.
2. In the left sidebar, look for the section labelled **Admin**.
3. Click **Manage Groups**.

Step 2 — Open your group

- 1 You'll see a list of every group you admin, one row each.
- 2 Tap (or click) the row with **your group's name**. The page will load your group's settings.

Step 3 — Find the Play Times section

- 1 Scroll down the page until you see a heading that says **Play Times**.
- 2 To the right of that heading is a green button labelled **+ Add Play Time**. Tap it.

Step 4 — Fill in the form

The form opens with sensible defaults. Work top to bottom:

1

Label (optional)

- Type a short name like *Tuesday morning*. Members will see this. You can leave it blank.

2

Day of week

- Tap the dropdown and pick the day you actually play.

3

Start time

- Tap the dropdown and pick the time play begins. Times are in 15-minute increments.

4

Timezone

- Pick your time zone (e.g. *Eastern*). It defaults to Eastern.

5

Location

- Type the venue name, e.g. *Athens Community Center*. This shows on every sheet and is used for the weather forecast.

6

Player limit

- Type the maximum number of players. Anyone past this number goes to the waitlist.

7

Sign-up closes (hours before)

- How many hours before play sign-ups close. Most admins use **1** or **2**.

8

Withdraw closes (hours before)

- How many hours before play members can no longer drop without a hold. Leave blank to use the same number as sign-up.

9

Allow members to add guests

- Tap the checkbox if you want members to be able to bring a guest who isn't in the group.

10

Notes (optional)

- Anything you want shown on every sheet for this Play Time. Skip if not needed.

Don't worry about the "Auto-post" checkbox yet. Section 2 covers that. Leave it unchecked for now.

Step 5 — Save the Play Time

1

Make sure the **Active** checkbox at the bottom is ticked. (It is by default.)

2

Tap the green **Add Play Time** button at the bottom right of the form.

3

The form closes and your new Play Time appears in the list.

You did it. The Play Time is saved. To change it later, find it in the list and tap

Edit. To remove it, tap **Delete**.

2

Turn on auto-posting

Auto-posting is a switch on the Play Time you just made. With it on, the app creates the sign-up sheet for you on the day and time you choose, every week. Most admins post 7 days ahead.

Step 1 — Open the Play Time

- 1 Get back to your group: **More** menu (phone) or **Admin** sidebar (computer)
 **Manage Groups**  tap your group.
- 2 Scroll to **Play Times**.
- 3 Find the Play Time you want to auto-post and tap  on the right side of its row.

Step 2 — Turn on Auto-post

- 1 Scroll down past the basic fields. You'll find a checkbox labelled **Auto-post the sign-up sheet**.
- 2 Tap the checkbox so it is checked.
- 3 Two new dropdowns appear: **Post day** and **Post time**.

Step 3 — Pick the post day and time

- 1 **Post day** — tap and pick the day of week you want the sheet to go live (e.g. *Sunday* for a Tuesday play time means it posts about 2 days ahead).
- 2 **Post time** — tap and pick the time of day. Pick a time members are likely to

see the alert — 5:00 pm on a Sunday is a common choice.

What time should I pick? Roughly when you want the notification to land in members' phones. Most groups post 5–7 days ahead so members have plenty of time to sign up.

Step 4 — Save

- 1 Scroll to the bottom of the form.
- 2 Tap the green **Update Play Time** button.
- 3 The form closes. The Play Time card now shows the auto-post day and time in green text.

What happens next

At your chosen day and time

The app creates the sign-up sheet automatically — you don't have to do anything.

Members get a push notification

"A new sign-up sheet is open." Tapping it opens the sheet.

Members who prefer email

Get the same alert by email instead.

The sheet appears

On the dashboard, in the Sheets tab, and on the group page (see Section 3).

Skipping a week? Two ways: (1) the day before the auto-post, edit the Play Time and uncheck **Auto-post the sign-up sheet**, save, then turn it back on after the week passes; or (2) let the sheet post and then open it and tap **Cancel**.

3

Where members find the sheet

Once the sheet is posted you don't need to send anyone a link. Members can reach it from five different places.

1. The push notification

The moment the sheet posts, members with notifications turned on get an alert on their phone. Tapping the alert opens the sheet directly — no extra clicks needed.

2. The Sheets tab

1

On the phone, tap the **Sheets** icon in the bottom row (looks like a clipboard, second from the left).

2

On a computer, click **Sheets** in the left sidebar.

3

Every open sheet for groups they belong to appears here. They tap the card to open it.

3. The dashboard (home screen)

1

On the phone, tap the **Home** icon in the bottom-left of the bottom row.

2

On a computer, click **Dashboard** in the sidebar.

3

Upcoming sheets show up as cards near the top. Tapping a card opens the sheet.

4. The group page

1

From the bottom row tap **Groups** (computer: **Groups** in the sidebar).

2

Tap the group's name.

3

Open sheets for that group appear at the top of the page.

5. A direct link

If a member shares a sheet link by text or email, tapping it opens the sheet for anyone in the group.

Where you'll see it as an admin. All the same places, plus an **Admin › Manage Sheets** view that lists every sheet across all the groups you admin.

If a member can't find the sheet

1

Confirm they're a member of the group. Open **Admin** › **Manage Groups** › your group › the **Members** section. Their name should be there.

2

Ask them to open the app, then pull down on the home screen to refresh.

3

Have them tap the **Sheets** tab. If the sheet shows up there, all is well.

4

If they didn't get the notification, ask them to open **Profile** › **Notifications** and confirm push notifications are on for their phone.

4

Create a sheet by hand

For a one-off — a holiday session, an extra court time, a special event — you can post a sheet directly without changing your Play Time.

Step 1 — Open the Sheets tab

ON YOUR PHONE

Tap the **Sheets** icon at the bottom of the screen (clipboard icon, second from the left).

ON A COMPUTER

Click **Sheets** in the left sidebar.

Step 2 — Open the create form

1

At the top right of the page is a green button labelled **Create Sign-Up Sheet**.

2

Tap it. A form opens.

Step 3 — Pick the group

1

The first field is **Group**.

2

If you only admin one group, the group's name is already filled in — nothing to do.

3

If you admin more than one, tap the dropdown and pick the right group.

Step 4 — (Optional) Use a Play Time as the starting point

1

Right under **Group**, if your group has Play Times set up, you'll see a field labelled **Use a play time (optional)**.

2

Tap the dropdown and pick a Play Time (e.g. *Tuesdays 6:00 pm — Athens Community Center*). The form auto-fills the date, time, location, and limits for you.

3

If you don't want this, leave it on **Enter details manually**.

Step 5 — Fill in the details

1

Event Date

- Tap the date field and pick the date of play.

2

Event Time

- Tap the dropdown and pick the start time. Times are in 15-minute increments.

3

Location

- If you've used a location before, tap the dropdown and pick it. To add a new one, choose **+ Add new location** and type the name in the box that appears.

4

Player Limit

- Type the maximum number of players. Anyone past this goes on the waitlist.

5

Sign-Up Closes

- Tap the dropdown. Pick *1 hour before*, *2 hours before*, *3 hours before*, or *12 hours before*.

6

Withdraw Closes

- Tap the dropdown. Pick *No withdraw deadline* or one of the same hour options. After this point a member who drops gets a hold.

7

Notes (optional)

- Type anything you want members to see on the sheet (e.g. "bring water, bring a friend"). Skip if not needed.

Step 6 — The two checkboxes

1

Allow members to add other members

- Tap to check if you want members to be able to sign up a friend on their behalf.

2

Notify group members on creation

- This is checked by default. Leave it on so the group hears about the new sheet. Uncheck only if you want to post quietly.

Step 7 — Create the sheet

1

Scroll to the bottom of the form.

2

Tap the green **Create Sheet** button.

3

The app takes you straight to the new sheet's page. It's live and members can sign up.

Need to change something later? Open the sheet from the **Sheets** tab.

There's an **Edit** button to change details and a **Cancel** button to call the whole thing off — members are notified either way.

Tips for smooth weeks

Small habits that keep the group running well.

Post at the same time every week

Members learn the rhythm and check in on schedule.

Use a 1–2 hour sign-up close

Late enough that everyone can join, early enough to plan courts.

Use a same-day withdraw close

Stops last-minute drops from leaving courts short.

Keep one Play Time per slot

If you play Tuesdays at 6 and Thursdays at 6, make two Play Times.

Pause, don't delete

Going on vacation? Edit the Play Time and uncheck **Active**. The history stays intact.

Got stuck?

- Sheet didn't post — open the Play Time and check that **Auto-post the sign-up sheet** is on and **Active** is on.
- Wrong time on the sheet — edit the Play Time, save, then either wait for next week or post manually using Section 4.
- Member missed a notification — have them open **Profile › Notifications** and turn push on.
- Member's name not in the group — open **Admin › Manage Groups › your group › Members** and add them.

- Need help fast — reach out to the Tri-Star team.
