

TRI-STAR PICKLEBALL

Group Admin Quick Start

A short, friendly guide to setting up Play Times, auto-posting sign-up sheets, and creating sheets by hand.

What's inside

Four short sections. Each one walks you through a single task with numbered steps you can follow on your phone or laptop.

1	Set up a Play Time for your group	3
2	Turn on auto-posting sign-up sheets	5
3	Where members find the sheet	6
4	Create a sign-up sheet by hand	7

Before you start. You'll need to be an admin of your group. If you can see your group in the **Admin** menu, you're set.

1 Set up a Play Time

A "Play Time" is your group's recurring slot — for example "Tuesday Mixed at 6pm." You set it up once, and it's the foundation for auto-posted sheets.

How to get there: Tap **Admin** > **Groups** > your group > **Play Times**

Steps

- 1 From the **Admin** menu, choose **Groups**, then tap your group.
- 2 Scroll to **Play Times** and tap **Add Play Time**.
- 3 Fill in the basics: a label, the day of the week, and the start time.
- 4 Add the location, player limit, and how far ahead sign-ups and withdrawals close.
- 5 Tap **Add Play Time** at the bottom. Done.

What each setting means

Label

A short name members will see, e.g. "Tuesday 6pm Mixed."

Day & time

The day of the week and start time the play actually happens.

Location

Where you play. Used on the sheet and for weather.

Player limit

Total spots before extras go to the waitlist.

Sign-up closes

Hours before play that new sign-ups stop. Most groups use 1–2 hours.

Withdraw closes

Hours before play that members can no longer drop out without a hold.

Allow member guests

If on, members can bring a guest who isn't in the group.

Notes

Optional. Shows on every sheet for this Play Time.

Active

Turn off to pause this Play Time without deleting it.

2

Turn on auto-posting

Auto-posting creates the sign-up sheet for you, on the day and time you choose, every week. Most admins post 7 days before play.

How to get there: Open the Play Time you just created and turn on **Auto-post**.

Steps

- 1 In your group's **Play Times**, tap the Play Time you want to schedule.
- 2 Switch on **Auto-post sign-up sheets**.
- 3 Pick the **post day** and **post time** — this is when the sheet will go live.
- 4 Tap **Save**. The system will post the next sheet at that day and time.

Tip. Pick a post time when members are likely to see the notification, e.g. Sunday at 5:00 PM for the upcoming week.

What members get

A push notification

Sent the moment the sheet posts so they can grab a spot.

An email

For members who prefer email, or don't have push turned on.

A new card

Shows up on their dashboard and on the group page.

Skipping a week? Turn auto-post off the day before, then back on after that week's sheet would have posted. Or open the posted sheet and cancel it.

3

Where members find the sheet

Once a sheet is posted, members can reach it from anywhere in the app. You don't need to send a link.

Five ways members can find it

1. The push notification

Tapping it opens the sheet directly.

2. The Sheets tab

Bottom navigation → **Sheets**. Lists every open sheet they can join.

3. Their dashboard

The home screen shows upcoming sheets for groups they belong to.

4. The group page

Tapping the group name shows that group's open sheets at the top.

5. Direct link

If a member sends a link, anyone in the group can open it.

Where you'll see it as an admin. The same places members do, plus an **Admin › Schedule** view that lists every sheet across all your groups.

If a member can't find it

- 1 Confirm they're a member of the group — check **Admin › Groups › Members**.
- 2 Ask them to pull down on the dashboard to refresh.

3

Have them check the **Sheets** tab. If it's there, they're good.

4

Create a sheet by hand

Need a one-off sheet — a holiday session, a special event, an extra court time? You can post one directly without changing your Play Time.

How to get there: Tap the **Sheets** tab > **Create Sign-Up Sheet**

Steps

- 1 Open the **Sheets** tab and tap **Create Sign-Up Sheet**.
- 2 Pick the group this sheet is for.
- 3 Choose the **date** and **start time**.
- 4 Set the **location** and **player limit**.
- 5 Set how far ahead sign-ups and withdrawals close.
- 6 (Optional) Add a note members will see on the sheet.
- 7 Leave **Notify members on create** on so the group hears about it.
- 8 Tap **Create**. The sheet is live immediately.

Editing afterwards. Open the sheet from the **Sheets** tab. You can update details or cancel it — members are notified either way.

Tips for smooth weeks

Small habits that keep the group running well.

Post at the same time every week

Members learn the rhythm and check in on schedule.

Use a 1–2 hour sign-up close

Late enough that everyone can join, early enough to plan courts.

Use a same-day withdraw close

Stops last-minute drops from leaving courts short.

Keep one Play Time per slot

If you play Tuesdays at 6 and Thursdays at 6, make two Play Times.

Pause, don't delete

Going on vacation? Toggle **Active** off. History stays intact.

Got stuck?

- Sheet didn't post — check that **Auto-post** is on and the Play Time is **Active**.
- Member missed a notification — have them open **Profile › Notifications** and turn push on.
- Wrong time on the sheet — edit the Play Time, then re-post for that week.
- Need help fast — reach out to the Tri-Star team.
